

100% ORGANIC

Elixirs for Life

MEDIA INFORMATION

Elixirs for Life connects people to the unique life renewing power of plants through our bespoke product line.

Founder Kandis Twa completed her study of the traditional and spiritual uses of plants and was inspired to share this information by creating products that were powerful and practical.

Our product line includes thirteen products that include candles, skin cream, room spray, soap and body scrub.

We source our plants and raw ingredients that are grown and prepared using spiritually thoughtful practices for all of our handcrafted products.

“Each product is created with the intention of bringing about greater balance and wholeness in your everyday life.”

We are committed to giving back to our community, and are proud supporters of the Alberta Animal Rescue Crew Society, and Sacred Ground International an organization dedicated to inspire, inform and demonstrate the sacredness of all life.

“From my experience working in healthcare I realized that all dis-ease and imbalances include a component of spiritual and energetic disharmony. That inspired me to create products that nurture and renew ALL aspects of your being, so you can be wholly well.”
