

100% ORGANIC

Elixirs for Life

FUTURE FLOW
LIFE REFRESHING CANDLE

PRODUCT INFORMATION

I formulated this candle to stimulate your spiritual intuition and knowingness; allowing you to glide into the future with faith and confidence. I love this precise blend from the essential oils of the golden champa blossom, a revered plant often found near temples and ashrams in India; and the southern bush honeysuckle, noted for its ability to encourage us to live in the present. Burning this candle allows you to have faith, and confidence in your future!

DIRECTIONS FOR USE

Keep candles out of reach of children and pets. Never leave a burning candle unattended. Keep wood wick trimmed to 1/4" and centred to prevent a large flame.

INGREDIENTS

Non-GMO, organic soy wax, wood wick. Pure essential oils of silver fir, eucalyptus, and clementine orange. 100% natural plant-based fragrance oils

POINTS TO BE AWARE OF

All of our candles are made with natural wood wicks—mostly because I love the way they crackle. But I also use wood wicks because the energy of the botanicals is best supported by a natural wood flame. Because the wood is a natural product, there are variations in the way they behave, and occasionally some can be tricky to light. I suggest lighting your candle with a lighter rather than matches, simply because you can hold the flame to the wick for a longer period of time until the flame catches the wood. Caring for a wood wick takes a little bit more care than a cloth wick, but not so much as a bonsai tree. It's important to carefully trim the wick, once it is completely cooled, so that about 1/4 of an inch is exposed. If there is too much wick exposed, it can create a large flame with lots of soot. If there is not enough wick exposed then the candle can be difficult to light. If you are experiencing difficulty lighting your candle, please see our FAQ's

Some of this may seem obvious but, we can all use a friendly reminder from time to time! Keep candles out of reach of children and pets. If you have a pet octopus, or many children this may be difficult :) Never leave a burning candle unattended. Keep wood wick trimmed to 1/4" and centred to prevent a large flame.

Golden Champa
Magnolia champaca

Brings ease during times of life that are full of transitions and change.
