POINTS TO BE AWARE OF

All of the Here & Now Sacred Room Sprays are created to bring you into the here and now of your life—into the present moment—all thanks to the amazig properties of the beautiful asphodel flower.

The valuable asphodel flower was revered in ancient Hellenic times, and creates the foundation of our Here & Now sprays because of its unique ability to bring you into the present moment, so you can hear your Divine guidance and enjoy all the miraculous moments of your life.

Brings you into the here and now of your life by gently grounding and centering your energy into your body.
